EDUCATION

SNJB's Late Sau Kantabai Bhavarlalji Jain College of Engineering Nashik
Computer Engineering Bachelor of engineering August 2021 - June 2025

Snj High School, Chandwad Nashik
Science H.S.C. May 2020 - May 2021
Percentage: 78.83%

Snj School, Chandwad Nashik
Degree in S.S.C. April 2018 - April 2019
Percentage: 75.80%

EXPERIENCE

Capabl | Full stack Developer June 2023 - July 2023
Experience developing web applications with Java for the back-end (Java, Servlet, JSP) and contemporary front-end languages (HTML, CSS, JavaScript) is available through a one-month internship program for Java Full Stack Developers. Interns will work together on actual projects, learn about the development lifecycle, and improve their deployment, testing, and coding abilities.

SKILLS

Programming Languages:	Java, HTML, CSS, JavaScript, Data Structure and Algorithm
Libraries/Frameworks:	Sevelet, JSP, JDBC, Spring
Tools / Platforms:	Git and GitHub, IntelliJ, VScode, Eclipse, Postman
Databases:	SQL, SQL Server

PROJECTS / OPEN-SOURCE

Portfolio website | Link *HTML, CSS, Javascript*
A single-page website with 5 different page links opens on the same landing page, overlapping each section. The design uses HTML, CSS, and JavaScript for a seamless user experience, transitions, and easy navigation for users.

Product Management System | Link *JSP, Java, Spring, MYSQL*
The goal of this Product Management System project is to store data in a database and carry out CRUD operations. The project is constructed with MySQL, Spring, Java, and JSP. It has greatly improved my understanding of Java, JSP, JDBC connectivity, and how to implement CRUD operations in an application. It has also given me invaluable practical experience in creating reliable and effective web-based systems.

E-Tour *Html, CSS, JavaScript, JSP, Java, Spring, MYSQL*
E-Tour is a web-based application designed for seamless tour bookings. Its main goal is to provide a fast, effective, and reliable platform for communication between customers and the agency. Key features include authentication and authorization for secure access, allowing users to register, log in, and book tours. Users can search for tours based on duration, cost, and date, and receive a generated bill upon successful booking.

CERTIFICATIONS

- HTML and CSS (2 in 1) course from zero for beginners 2022 - **Udemy**
- Career Essentials in GitHub Professional Certificate - **GitHub, Linkdin**
- Project Development Using JAVA for Beginners - 2023 - **Udemy**
- Postman API Fundamentals Student Expert - **Canvas Credentials (Badgr)**
- SQL (Intermediate) - **HackerRank**
